# DIVING & SNORKELLING

## DIVING

The Dive Centre at One&Only Reethi Rah offers guided diving and introductory courses to guests. It is certified as a PADI Gold Palm Resort Dive Centre and a 100% PADI AWARE member, one of the few in the Maldives.

The team consists of professional PADI Instructors, who are all equally passionate divers and dive teachers. Courses are taught from basic scuba demonstrations for the completely inexperienced up to professional level Dive Master courses.

## SNORKELLING EQUIPMENT

Snorkelling is great fun, easy to learn and an ideal way to build up confidence in the water. It is accessible to anyone and is an enjoyable way to get the whole family involved. Discover the underwater world with a set of snorkelling equipment, life vest or an underwater camera, all available at the Dive Centre.

Have you always wondered what it's like to discover the marine life? As a PADI Gold Palm Resort Diving Centre, we can take you from the absolute beginner to Dive Master level. The adventure of learning to dive as well as exploring on the reef is quite unique.

- Bubblemaker (for children of ages 8 – 9)
- Discover Scuba Diving (or ages 10 and above; half-day scuba introduction programme)
- Scuba Diver/Open Water Diver Course (from ages 10 and above; entry-level scuba courses with certification)

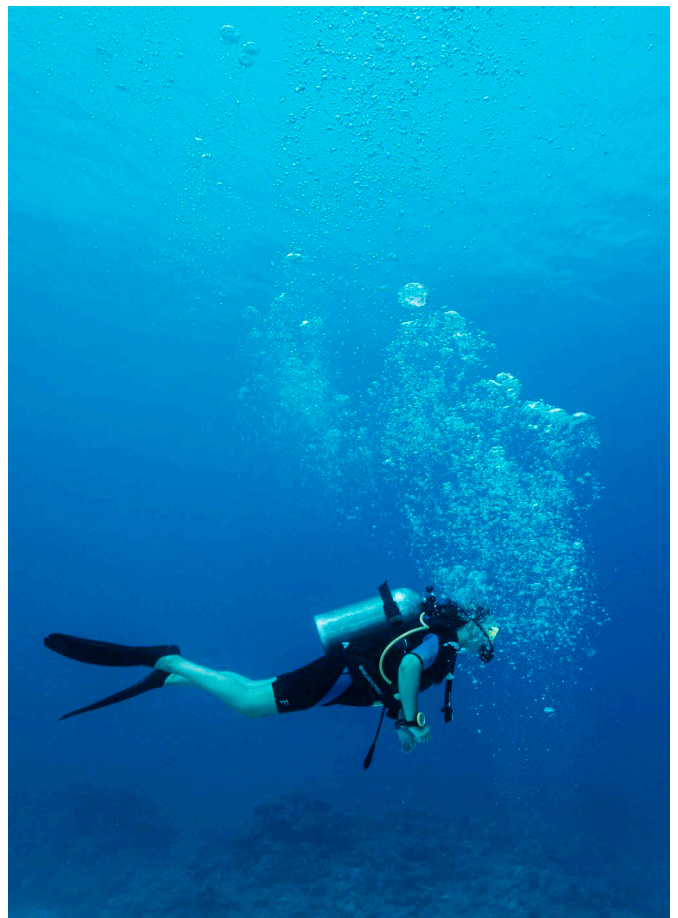

Self-studying can be done online via PADI eLearning or standard teaching materials, as well as a friendly and helpful crew of motivated, professional team members. They can teach in a variety of languages.

A medical check is not necessary but should be considered if you have any medical conditions that may influence your ability to participate in any PADI Course or programme.

## DIVING COURSES

**OPEN DAILY 8.30AM TO 7PM**

**LOCATED ADJACENT TO THE RECEPTION**

# THEMED DIVES

## SHARK DIVE

Voshimas, a small thila (reef) located in Madiveru kandu (channel) south of One&Only Reethi Rah, is one of our two best shark points. The thila has some coral rocks on top with stunning fish life below, and the sharks are always on the thila's current side. Alternatively, Kuda Faru, located north of One&Only Reethi Rah, is one of the highlights in the North Malé Atoll. This thila extends into Makunudu kandu for some distance on the southern side. The west side drop off is the best for shark watching.

**EVERY MONDAY AND THURSDAY. 9AM TO 12.30PM**

## TURTLE DIVE

West Point is located north of One&Only Reethi Rah, deep in a channel. The reef is long and therefore a good place for a drift dive. It is an extension of Makunudu's house reef. The top of the reef is only 3 metres under the surface, and it slopes gently down to more than 30. At different depths and along the site are some reef ridges and coral rocks. The corals and fish life make this reef a beautiful dive site, but it is also our best spot for seeing Hawksbill sea turtles.

**EVERY THURSDAY. 2.30PM TO 4.30PM**

## STINGRAY DIVE

Madivaru Beyru and Madiga are two sites on the outer rim of the atoll. The top of the reef starts at 8 to 10 metres and slopes down to 20-30 metres, down to a sand bottom. Along the reef slope and on the sand lays several small to big coral blocks hosting a rich fish life. These sites are considered some of the best areas in the Maldives to see stingrays and groups of eagle rays. It is also great for underwater photography since there is minimal ocean current here.

**EVERY FRIDAY. 9AM TO 12.30PM**

## WRECK DIVE

The wreck is a former tugboat, sunk by the dive school in 1988 at the house reef of Hembadu, southeast of One&Only Reethi Rah. It is close to the reef, so the navigation to and from the wreck is rather easy. It is 16 metres long with the top at 15 metres and the bottom at 22 metres. The boat is a focal point for marine life and is a fish-watchers' delight. On the wreck's portside from 18 metres to the surface are big coral rocks. It is also a perfect place for a night dive.

**EVERY SATURDAY. 2.30PM TO 4.30PM**
