DIVING

DISCOVER THE MAGIC OF THE SILENT WORLD

Velaa Private Island is located in the untouched Noonu Atoll where, only a few minutes away, divers will discover unexplored dive sites with some of the most amazing fauna that the Maldives has to offer. Velaa Dive Center uses all the latest Scubapro equipment which is renowned for its outstanding quality and is affiliated with PADI® (the Professional Association of Diving Instructors). Courses from the Seal Team for younger guests to the professional level of Divemaster for more experienced divers are available. Digital cameras and GoPro equipment are also for hire.

PRIVATE BOAT DIVE

Enjoy diving in utmost comfort and privacy, at your preferred time, on one of our diving boats or yachts where our instructors will customise each dive to your preference.

DIVING FOR EVERYONE

We offer a programme where everyone can experience the beauty of the Maldives marine life beneath the water. The Discover Scuba diving session starts at 1.30 PM in the pool followed by a boat dive at 2.30 PM.

DIVING FOR KIDS

For children, from 8 - 10 years old, we organise the Bubblemaker programme, where they can experience zero gravity in the pool. Diving in the sea on a private boat trip is also possible for children - we dive on a very shallow reef (2m / 6ft) for them to enjoy the feeling of swimming in an aquarium.

CERTIFIED DIVER

Dive one of the best places in the Maldives, with the latest equipment and a private PADI® Dive Instructor. Daily diving trips are scheduled for the mornings and afternoons. The morning dive trip leaves at 8.30 AM for 2 dives and the afternoon dive trip leaves at 2.30 PM for 1 dive.

SCUBA DIVING COURSES

Get your scuba diving certification with the PADI® Open Water Diver course - the world's most popular and widely recognised scuba course. To enrol in a PADI® Open Water Diver course (or Junior Open Water Diver course), you must be 10 years or older. No prior experience with scuba diving is required, however adequate swimming skills and good physical health is essential.

SPECIALITY COURSES

The specialities suggested by PADI® are courses which allow certified divers to improve their capabilities in various aspects of diving. Divers looking for a challenge and extreme adventure can complete courses such as cavern diving, wreck diving, deep diving, drift diving, and diving with underwater scooters (DPV). Those who wish to improve their general diving skills, courses like peak performance buoyancy, underwater navigation, and boat diving are available. There are also Project AWARE courses like fish identification and coral reef and shark conservation, as well as a course to improve underwater photo and videography skills.

SNORKELLING

Experience the friendly Maldivian marine life and reefs with bustling schools of fish and abundant coral diversity. Venture through the glistening waters of the Noonu Atoll with our professional snorkelling guide or be guided by our in-house marine biologist who will show you all the hidden gems of the Maldives. Join us for an entirely new snorkelling experience on a night snorkelling trip, equipped with a specialised mask filter and a blue torch to see the coral glow with colours that are invisible to the naked eye (15 years old and above). Improve your swimming skills or learn how to swim like a mermaid with a monofin, in the ocean or in the privacy of your villa pool.

CORAL RESTORATION PROJECT

In order to ensure the natural underwater beauty for future generations, Velaa Private Island has a dedicated marine team currently working on the biggest coral restoration programme in the Maldives. Guests can snorkel or scuba with the resident marine biologist who will share expertise and knowledge of daily marine conservation responsibilities of the foundation, which is recognised around the world. Guests also have the opportunity to adopt an individual coral line to add to Velaa's intrinsic rainforest of corals. They will be awarded with a coral adoption certificate along with biannual updates of the coral development.
